

## ROYAL FLAIR NEWSLETTER - JUNE 2022

G'Day Royal Flarians and welcome to our June 2022 issue of

### THE FLARIAN

Hi everyone and welcome to our June winter issue. Hope you are all keeping dry, warm and safe. For those way up north complaining it gets a bit cool do not worry as here in Victoria it is freezing. Very soon though we will all be saying "Geez it's hot".

(Continued)

Caravan HQ recently had the Royal Flair range on display at the Brisbane Caravan Industry Australia Supershow from the 7<sup>th</sup> to 12<sup>th</sup> June at the Brisbane Showgrounds, and, Jacinta Waters, Social Media Liaison for Caravan HQ says it was a great success.

“The team pulled out all the stops to deliver the entire range of 2022 demo caravans from both our Yatala (QLD) and Epping (VIC) dealerships.

What really stood out for us was the massive amount of interest shown in the RF vans, We had the Raptors, Razors, Piazzas, Family Flairs, Designers and Aussiemates on display for the show and people simply couldn't get enough of them!

This year in Brisbane will certainly go down as one of our best ever shows. The team had a great time meeting so many new people and seeing a few familiar faces. We have also welcomed many more customers into the Family over the 6 days and want to give them all a big congratulations on their new vans.”

**PRODUCTION NEWS:**

Bill's son Peter has been busy looking after the factory and production while dad is having a short break with Angie up in the N.T. Work continues at pace, with more vans rolling out the door than ever before:

*"I'm so proud of what we have achieved recently, every week we are improving and the production line is working like a well-oiled machine..."*

On the factory floor right now Royal Flair are working on a big 25 ft Piazza slide out which is going to be very special indeed when complete

**Peter Deralas holds his weekly meeting thanking the team for all their hard work.**

[Max from marketing has a look at the great Royal Flair “Beast” and this is his review.](#)

“The 34ft beast has awoken and what a van she is. For the first time ever one of our builds can carry a full sized Polaris on its rear tray! The spacing of the 6 wheels allows for extra stability on and off road, while the Alko EnduroX Tri Axle Airbag suspension ensures true next-generation performance.

(CONTINUED)

Two spare wheels are mounted at the rear with all tyres sporting Byron black landcruiser 200 rims, these really come into their own when set against the limited edition raptor camo wrap. Energy wise, the 3 solar panels and extra lithium battery bolster its 2600 Enerdrive package and leave this Raptor ready to hunt its prey.

Inside, the van is equally striking with the large windows providing lumens of natural light showcasing the stylish black fittings and black granite square sink. The matching black cupboards and upholstery are also complemented superbly by the white gloss walls.

This van has proved extremely popular on social media so far, racking up a very respectable 80k views on Tik Tok alone.”

Great review, thanks Max!

### FROM MARK BURNS – WARRANTY MANAGER:

As you know manufactures Australia wide are still experiencing problems obtaining parts for all sorts of things, and, caravans are no exception. To date we are managing to keep up as best we can with warranty claims even though they are few, so please be patient. If you are travelling and do not have internet access and cannot fill out the on line claim please call the office on (03) 9357 8118 and press 2 for warranty.

### NAGAMBIE 2022:

We are all looking forward to our annual get together at Nagambie lakes 14<sup>th</sup> to 16<sup>th</sup> October and by the weather will hopefully be much better. I will need to know by no later than September 15<sup>th</sup> if you cannot attend. Lots of things planned and should be our biggest event yet.

### CARAVAN & VEHICLE REGISTRATION & COMPLIANCE PLATES:

**As previously advised please do NOT display these if you are selling or displaying photos your caravan. We have had advice from the police that would be thieves are copying these and using them on stolen vans and also cars.**

### **WHAT IS EVERYONE DOING AND WHERE WERE THEY?**

**OK, so it is cold in some places, warm in others but several Royal Flair vans have been seen on the road. So, what have they been up to? Sue Gent didn't mind if it was chilly, after all a great camp fire is all you need.**

**(CONTINUED)**

(CONTINUED)

And the Guilfoyles have started their 3-months road trip., and the Lay's kept warm at Warwick.

(CONTINUED)

**WELCOME – STARTER PACKS:**

A few members have queried why some dealers include free welcome – starter packs when they pick up their new van and some charge for them. This includes water and sullage hose and 15amp lead. I queried this with Royal Flair who advise that it is up to each individual dealer whether to include it as a welcome gift or charge for it.

OK folks, that is all for our June edition. Keep safe, warm and dry where ever you are.

Don't forget to keep an eye on our facebook page for any important updates.

If anyone is having a Christmas in July while travelling please send me your photos for our next issue.

Cheers! John
