

ROYAL FLAIR NEWSLETTER - NOVEMBER 2022

PRESENTED BY

G'Day Royal Flarians and welcome to our November 2022 issue of

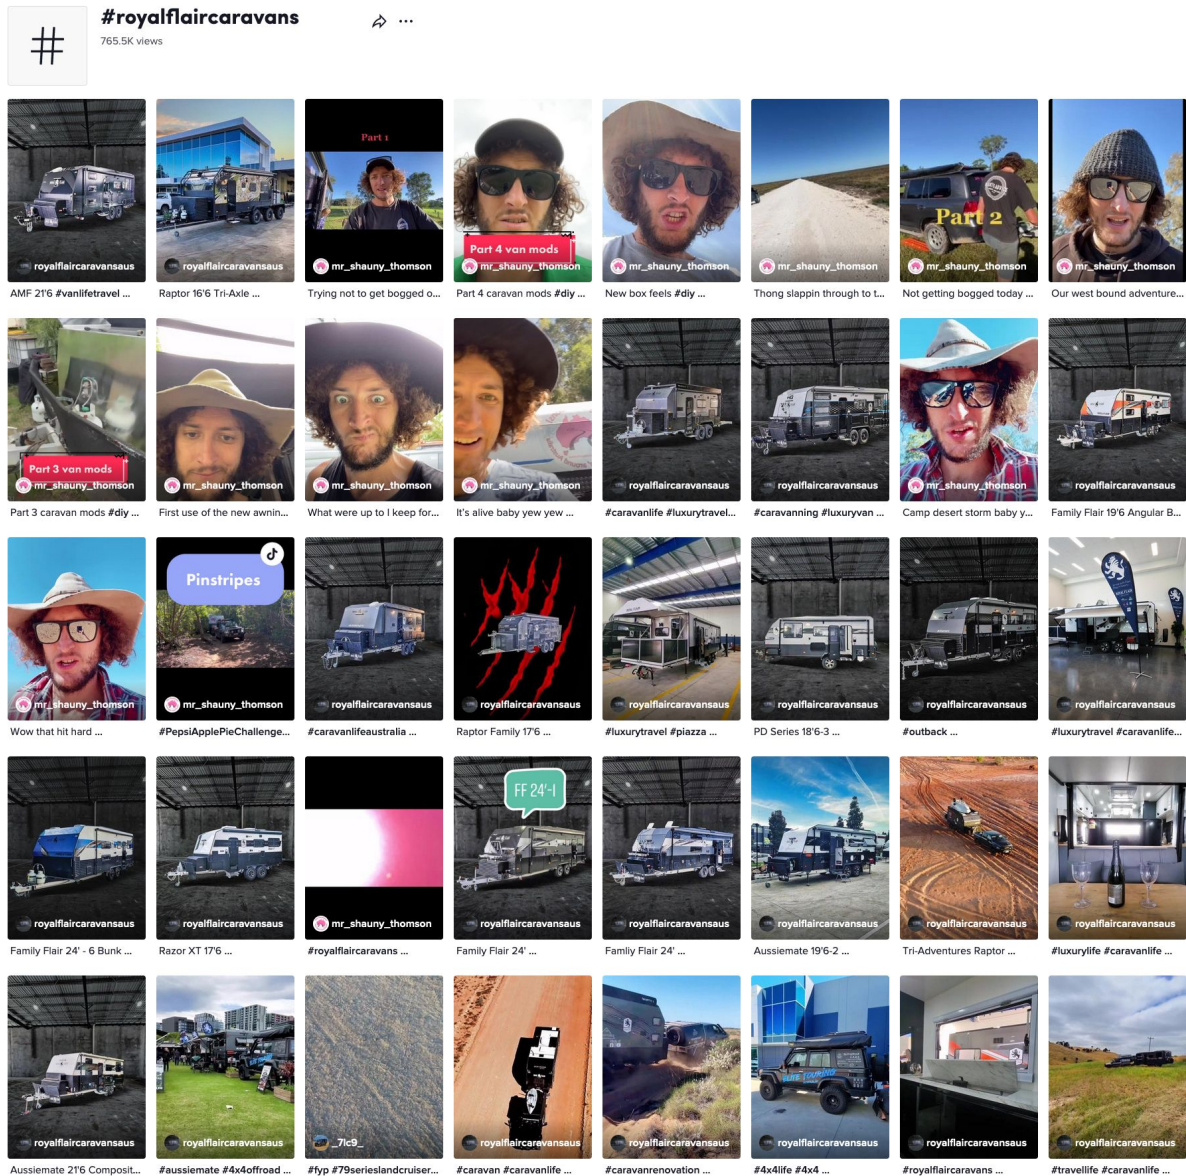

THE FLARIAN

Hi everyone and we hope you are managing to stay safe dry and warm. Did I say warm?? Where did Spring go and what will summer bring?? Hopefully much better warm weather where we can all get out and enjoy some great road trips. Great to see many new members, some who are patiently waiting on delivery of their new vans.

A QUICK CALL OUT FROM MAX IN MARKETING:

We have so far exceeded all expectations on TikTok reaching a whopping 765k views on the hashtag #royalfaircaravans I wanted to make a quick call out to everyone who records videos for Instagram or Facebook to upload them to TikTok as well, making sure to use the above hashtag. It would be a real treat to break 1 million views in the next few months and help our brand reach an even wider audience.

FACTORY UPDATE:

A quick glance at the factory floor unearths a hive of activity with all hands very much on deck in the lead up to the Christmas! Peter Deralas recently remarked how happy he was with the progress the team were making and that he would soon be buying everyone pizza when the end of year production goal was reached! We will be closed from December 23rd till January 16th to give all the staff a much needed holiday!

COWES PHILLIP ISLAND GET TOGETHER 2023

After some deliberation, and, following on from the regrettable cancellation of our October get together at Nagambie, it has been decided that March is warmer and more suitable to most members. With that in mind we have scheduled our next get together at the [NRMA Phillip Island Beachfront Holiday Park](#) on March 17 – 18- 19 next year.

This is a great park and is always heavily booked, even a year ahead by many. The park managers have kindly blocked out what sites they have available on these dates, and we have already posted this information on our club facebook page. The park was reviewed by Whats Up Downunder just over a year ago and received some great raves.

There is a lot do around the area such as a visit to the nearby Koala Conservation Centre where you can get close up to one of these cuddly koalas. If you are a chocoholic then a visit to Pannys Chocolate factory is a must, and, of course there is the Penguin Parade which would be a great event to think about after our welcome sausage sizzle on the Friday evening.

(CONTINUED)

Quite a few have already booked and all the premium power sites have gone, but the normal power sites are spacious and very well kept and take all size vans. It is only a couple of minutes walk on to the beach which is good for swimming and also fishing. Flathead are the main catch of the day and when the moon is right you can have a good catch of flounder. The park is pet friendly, has a great playground for kids plus FREE WiFi (5 gig a day per device...WOW! If by chance you have an electric vehicle they even have a power charge device. Yes, the park has everything!

We will be having our usual Saturday night gala event, and it will be at the nearby Anglican church hall, about three kilometres from the park. We suggest car pooling in the event you drink alcohol. It is a great hall, in fact better than the one we had at Nagambie. We will be having the usual raffles and auctions to raise money for Brain Cancer research and there are some great items to be had. Please bring plenty of gold coins for the raffles plus a couple of other fun things we have in mind to make the night. We will also have a special guest for the night.

If you haven't registered yet please message me on our club facebook page asap as spots are still filling fast.

TASMANIAN GET TOGETHER:

The Tassie Gathering 2023 being held again at Ross Caravan Park on the weekend of 10-12 Feb 23. You will need to book directly with the park on 0437 425 832 and mention you are with the Royal Flair rally group. Book early as they are already about half full for that weekend.

As always, any of you "big islanders" that are down this way are most welcome to join us.
Cheers, Martin Bullen

KEITH'S TRAVELS:

Our member Keith Moylan s still on the road and managing to avoid all the flood prone areas. He and his wife love meeting new folk and Keith enjoys meeting up with our great Aussie mates, while wife Sue checks out a great dish.

(CONTINUED)

OK folks that is all until our December Christmas issue. If you have a good yarn about your travels, birthdays, anniversaries, please message me. Meanwhile keep safe, dry and warm or cool.

Cheers: John
